DETAILED ACTION

Allowable Subject Matter

This Notice of Allowance is in response to the Amendment dated 1/23/2006.

Claims 8-27 are allowed.

Examiner's Statement of Reason's for Allowance

The following is an examiner's statement of reasons for allowance.

This Notice of Allowance is in response to the Amendment dated 1/23/2006.

Prior art was found which disclosed many of the features of the Applicant's claims.

McElfresh discloses ranking ads and placing ads based on performance based on CTP and PPC (Fig. 2).

Merriman disclosed Cost Per Action and Cost Per Thousand Impressions ad pricing models (Paragraphs [4, 5]) and ranking ads for placement based on ad performance (Fig. 1, 3).

Takayama disclosed providing ad cost discounts based on the advertiser signing up for more advertising or advertising over an extended period of time ([53, 54]) and charging more to an advertiser if an advertisement is accessed more ([59]; Fig. 6; Fig. 3; Fig. 11).

Langheinrich discloses placing advertisements which perform well and not showing ads which do not perform well (col 1, line 62-col 2, line 15).

However, the features of selling a predetermined number of impressions of an advertising message at a website and automatically determining earned bonus impressions of the same message that are provided without charging beyond the original sale price based on the positive performance of the advertising message was not found in the prior art.

Hence, the independent claim 8 and the other independent claims which state these features and their dependent claims were found to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
